RBC Bearings is a well-known international manufacturer and marketer of highly engineered precision plain, roller and ball bearings. We have been providing bearing solutions to our customers since 1919. Over the past ten years, under the leadership of our current management team, RBC Bearings has significantly broadened our end markets, products, customer base and geographic reach. We currently have 31 facilities, of which 28 are manufacturing facilities in five countries. Our selling efforts are supported by a global network of sales engineers, distributors and authorized agents.

In order to reinforce our team in Delémont Switzerland, Schaublin is currently looking for a

LEAN Manager

This position is responsible for creating and implementing LEAN philosophy and practices throughout all levels of the business.

Requirements:

- Ability to create and implement a Lean program from the ground up.
- Comprehensive understanding of Lean tools such as Six Sigma, 5S, Kaizen events, Value Stream mapping etc..
- Hands on involvement in all aspects of Lean projects.
- Proven ability to lead teams from various technical backgrounds.
- Proven project management skills.
- Comfortable working in a manufacturing environment
- Proven leadership and project management skills
- Team working, open minded, good communication skills

Education & Experience:

- Bachelors degree in Engineering or related field.
- Minimum 5 years experience implementing Lean principals in a manufacturing environment.
- Certifications in Lean, Six Sigma and or Blackbelt level certified.
- Preferred: Fluent in 2 languages – French & English.
